

## COLLEGE OF ENGINEERING & TECHNOLOGY

**Department** : Computer Engineering

**Lecturer** : Dr. Manal Helal

**Course** : Programming Applications

**Course No.** : CC213

**TAs** : Eng. Nour S. Eissa,

### Pointers

- 1) Write a C program that contains a function that can calculate both the minimum and the maximum items inside an array. The array is of type (int) and size 10. Write a main function to test your function.
- 2) Write a C program that contains a function that swaps two given integers. Write a main function that tests your function.
