# Sheet I
Revision

1. Write a C program that calculates the monthly gross salary of a salesman using the table below.

Items / Sales Amount	Commission Rate / Item
1000 ~ 2000 items	1EGP / item
2001 ~ 5000 items	2EGP / item
>5000 items	3EGP / item

The monthly salary of the salesman consists of a fixed amount of 1,000EGP and the commission which is based on the amount of sales.

2. Write a C program that reads an integer n from the user and print the following shape. (where n is the number of lines)

```
*
**
***       n=4
****
```

3. Write a C program that reads an integer n from the user and print the following shape. (where n is the number of lines)

```
   *
  **
 ***      n=4
****
```
